PUBLIC NOTICE OF APPEAL

TO: All Interested Parties
FROM: S.C. Department of Health and Environmental Control
SUBJ: Town of Mt. Pleasant
2005-1E-065-P
DATE: December 15, 2006

The Department has issued a permit to the Town of Mt. Pleasant to construct a community pier on Molasses Creek at the end of 4th Street, Remley's Point, in the Scanlonville section of the Town located in Charleston County.

Thomas Rogers has requested a contested case hearing before the Administrative Law Court.

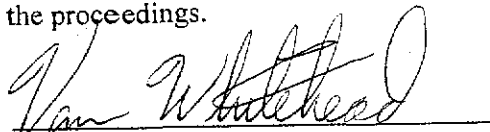

Intervenors: A motion for leave to intervene, with the \$25 filing fee, shall be filed with the South Carolina Administrative Law Court, Edgar A. Brown Building, 1205 Pendleton Street, Suite 224, Columbia, South Carolina 29201, (telephone 734-0550) and served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of the intervention on the proceedings. A proposed answer or position in intervention shall be attached to the motion.

Any person may intervene in any pending contested case hearing upon a showing that:

- (1) the movant will be aggrieved or adversely affected by the final order;
- (2) the interests of the movant are not being adequately represented by existing parties, or that it is otherwise entitled to intervene;
- (3) that intervention will not unduly prolong the proceedings or otherwise prejudice the rights of existing parties.

The motion for leave to intervene shall be filed as early in the proceedings as possible to avoid adverse impact on the existing parties or the disposition of the proceedings. Unless otherwise ordered by the administrative law judge, the motion to intervene shall be filed at least twenty (20) days before the hearing. Any later motion shall contain a statement of good cause for the failure to intervene earlier.

A person granted leave to intervene is a party to the proceeding. The intervenor shall be bound by any agreement, arrangement or other matter previously determined in the case. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding. If appropriate, the administrative law judge may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings.

**Notice of Availability
Final Environmental Impact Statement
Proposed Marine Container Terminal
at the Charleston Naval Complex
North Charleston, South Carolina**

The Final Environmental Impact Statement (EIS) for the Proposed Marine Container Terminal at the Charleston Naval Complex is available for public comment. The 30-day comment period starts on the publication of the Notice of Availability in the Federal Register on December 15, 2006 and ends on January 16, 2007, unless an extension is requested and granted in writing. The South Carolina State Ports Authority (SCSPA) and the South Carolina Department of Transportation are the permit applicants for the Proposed Project, which consists of the proposed port facility and an access roadway that provides a direct connection between the port facility and Interstate 26.

Project Description

The Proposed Project consists of the development of a marine container terminal at the former Charleston Navy Base on the Cooper River in North Charleston, Charleston County, South Carolina. The proposed wharf would be 3,510 feet long, 200 feet wide, and 18 feet above MLW. Six cranes would be positioned along the wharf to service 3 berths capable of docking post-Panamax ships. The majority of the 287.5-acre terminal would be paved and used for processing and storing shipping containers, support facilities, and stormwater management facilities.

The SCSPA currently handles approximately 2 million TEU (twenty foot equivalent units), an industry standard of measurement that is equal to one twenty foot shipping container, at the Port of Charleston. The development of the proposed port facility will enable the SCSPA to handle an additional 1.4 million TEU, and in conjunction with planned improvements to existing facilities will meet their needs through 2025. The Proposed Project would result in an increase of approximately 650 marine container vessels per year in Charleston Harbor.

The construction and operation of the proposed port facility would also require the placement of fill material in 2.4 acres of freshwater wetlands, 9.6 acres of tidal marsh, and the excavation and backfilling of 56.6 acres of open water. In addition, 77.9 acres of open water between the wharf and the Federal navigation channel would be dredged to construct the berthing area and to provide deep water access to the proposed port facility. The dredged material would be placed in the existing, upland confined disposal facility located at the southern end of Daniel Island. The SCSPA has also proposed to install a sediment suspension system that would minimize the frequency of maintenance dredging of the berth.

The development of the port access roadway includes the construction of a new interchange that would affect local traffic patterns and access to I-26. Exit 218 (Spruill Avenue) would be closed and improvements to Exit 217 (Meeting Street) would need to be constructed to provide safe and efficient access to the interstate. In addition, a local connector road to Bainbridge Avenue and Spruill Avenue would be constructed to provide access to the interstate via the port access roadway. Stromboli Avenue would be reopened between Carner Avenue and Spruill Avenue to improve future traffic flow, and the portion of Meeting Street that is located northwest of Stromboli Avenue would be closed to through traffic. Traffic that currently uses this portion of Meeting Street would be rerouted to Carner Avenue using existing streets.

The Proposed Project is expected to generate an average of 7,700 daily vehicle trips at full capacity, the majority of which would be container trucks that use the proposed access roadway to travel between the port facility and I-26. The construction and operation of the proposed port access roadway and local connector road would require the placement of fill material in 0.34 acres of freshwater wetlands and 1.97 acres of tidal marsh. In addition, the development of the access roadway would require impacts associated with clearing and the placement of piles to construct elevated sections of the roadway that cross freshwater wetlands and tidal marsh and two bridges that cross Shipyard Creek.

The proposed mitigation plan includes a number of different activities to offset unavoidable impacts associated with the Proposed Project, such as full compensation for businesses and properties that experience direct impacts, environmental monitoring during construction, the construction of noise barriers, tidal marsh restoration, funding for the preservation and enhancement of Morris Island and other aquatic resources on the Cooper River, funding for oyster restoration in Charleston Harbor, supplemental safety measures at existing rail crossings in the adjacent community, transportation improvements along Meeting Street to help accommodate future local traffic, and a number of community programs.

Final Environmental Impact Statement

Comments that were received in response to the draft EIS and at public information workshops and stakeholder meetings were provided to the SCSPA and the SCDOT and will be considered in our overall evaluation of the Proposed Project. The final EIS includes a number of updates and revisions that were made to the Proposed Project, additional studies that were conducted, text changes, and responses to comments. These changes include the following: Alternative 1D was identified as the proposed access roadway, SCSPA and SCDOT submitted modifications to their permit applications, the proposed mitigation plan has been revised and expanded, and air quality analyses, traffic analyses, and sediment analyses have been completed.

The final EIS will be available on December 15, 2006, for public review and comment online at www.PortEIS.com, or by request on compact disc. Hard copies of the document will be available for public review at the following locations:

SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

December 15, 2006

Permit Number: OCRM-06-275-F
Permit ID: 55469

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Jackson H. Moore, Jr.
C/O Watersdeep, Inc.
PO BOX 12880
Charleston, SC 29412

LOCATION: On and adjacent to Stono River at 2239 Lazy River Dr., Charleston, Charleston County, South Carolina.
TMS#: 310-14-00-023.

WORK: The work as proposed and shown on the attached plans consists of reconfiguring an existing private dock. Specifically, the applicant seeks to add an additional 4' x 36' walkway with handrails to the ebbside of the pierhead, move the existing 3' x 20' gangway to the end of the new walkway, and move the existing floating dock to the end of the gangway. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

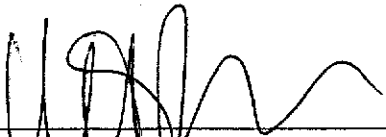

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before December 30, 2006. For further information please contact the project manager for this activity, Amanda Flake at 843-747-4323 ext. 149.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

December 15, 2006

Permit Number: OCRM-06-366-R
Permit ID: 56467

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Edward T Heavey
C/O Dockmasters Construction LLC
491 Main Rd
Johns Island SC 29455

LOCATION: On and adjacent to Guerin Creek at Lot B 115 Drew Lane, Awendaw, Berkeley County, South Carolina. TMS#: 257-00-00-015.

WORK: The work as proposed and shown on the attached drawings consists of constructing a walkway. The applicant seeks to build a 4' x 97' walkway leading to an island with an existing dock. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before December 30, 2006. For further information please contact the project manager for this activity, Tess Rodgers at 843-747-4323 ext. 116.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

December 15, 2006

Permit Number: OCRM-06-371-R
Permit ID: 56607

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Robert Masters & Donald Dawson
C/O Newkirk Environmental Inc
PO Box 746
Mount Pleasant, SC 29465

LOCATION: On and adjacent to Horlbeck Creek at Lots 40 & 41 Parkers Landing Rd, Rivertowne Country Club, Mount Pleasant, Charleston County, South Carolina.
TMS#: 583-14-00-067.

WORK: The work as proposed and shown on the attached plans consists of constructing a joint use dock. The applicant seeks to build a 4' x 990' walkway, with handrails. On both ebb and flood side of the end of the walkway, new walkways will lead to 10' x 10' fixed pierheads, access ramps and 10'x 20 floating docks. In between the two pierheads, two 16' x 16', four-pile boatlifts are proposed. The work as described is for joint, private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

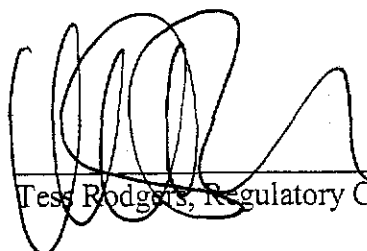

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

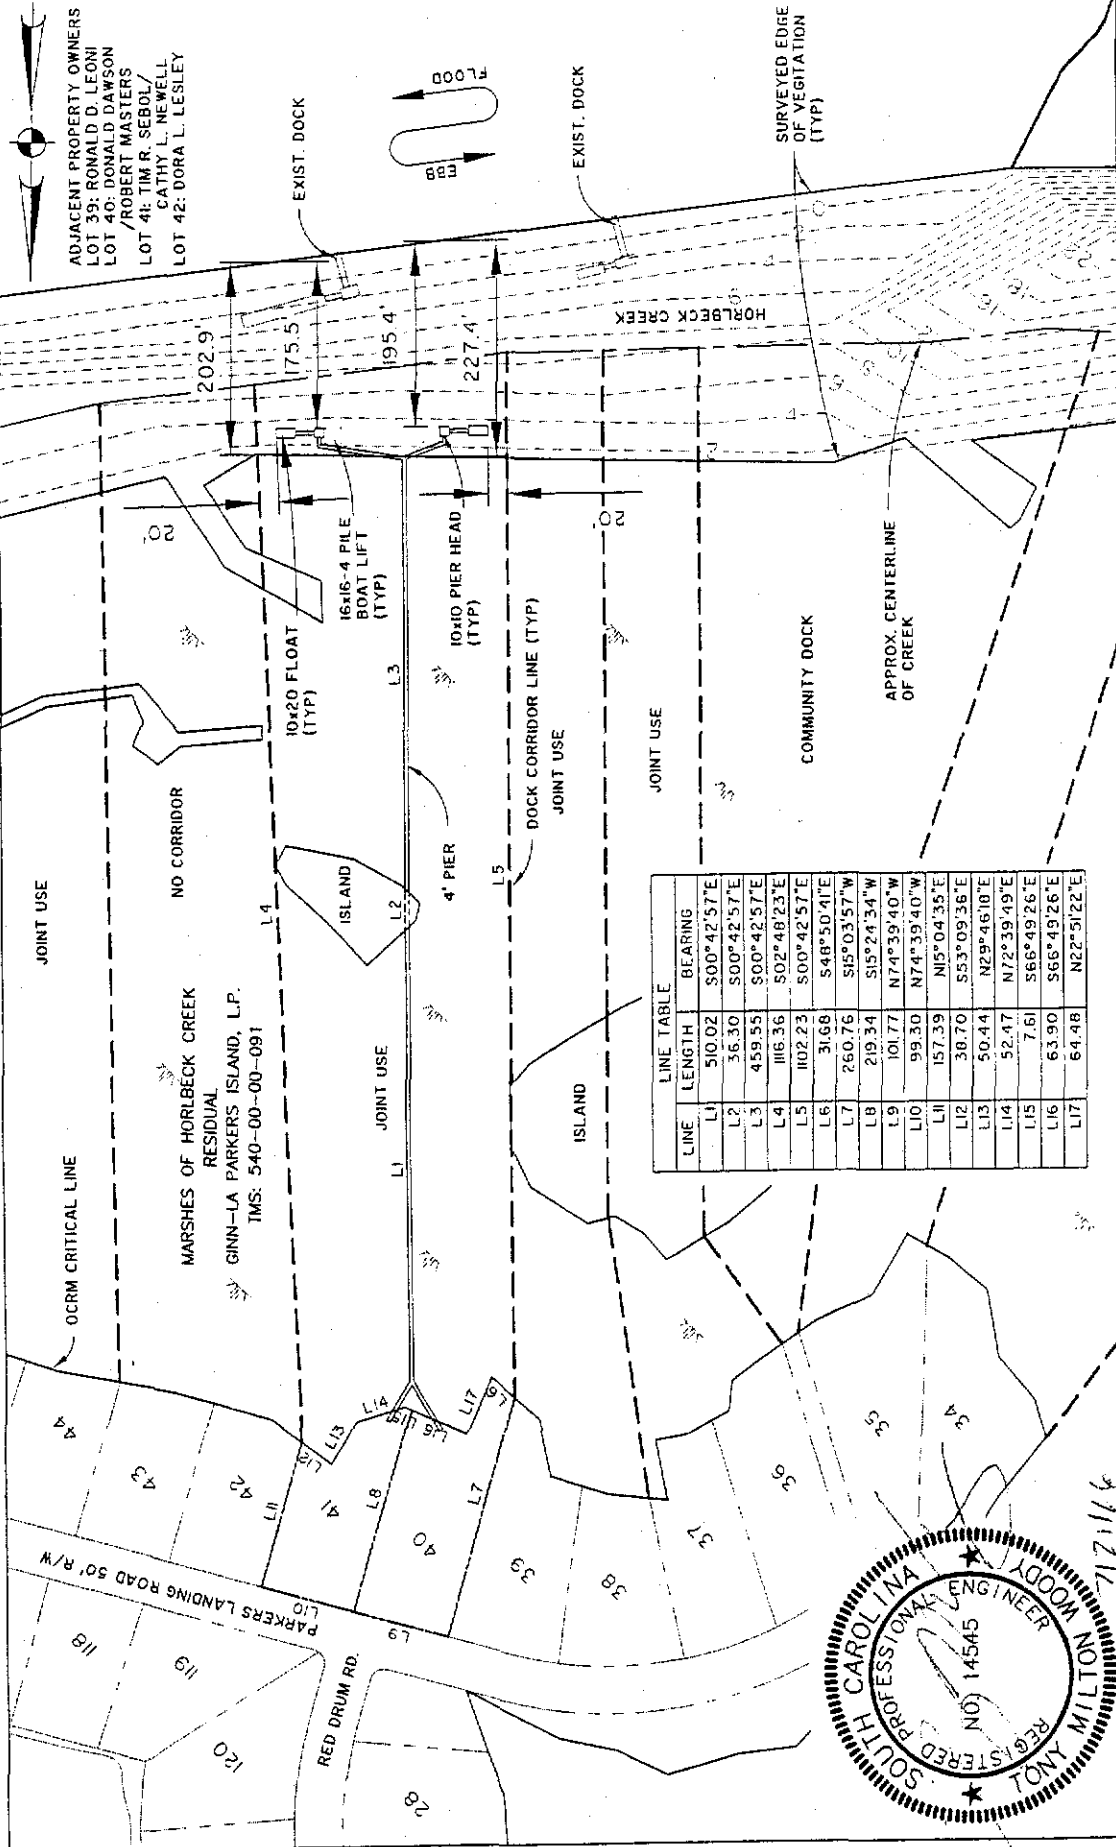

To assure review by OCRM, comments regarding this application must be received by OCRM on or before December 30, 2006. For further information please contact the project manager for this activity, Tess Rodgers at 843-747-4323 ext. 116.

It is a very common mistake to think that the only way to protect your business is by having a lawyer. While a lawyer is certainly a valuable asset, it is not the only way to protect your business. In fact, there are many other ways to protect your business, and many of them are much simpler and less expensive than hiring a lawyer. For example, you can protect your business by using proper record-keeping, by having a clear and concise set of policies and procedures, and by having a good understanding of the law. All of these things can help you protect your business and avoid the need for a lawyer. So, while a lawyer is certainly a valuable asset, it is not the only way to protect your business. There are many other ways to protect your business, and many of them are much simpler and less expensive than hiring a lawyer.

PERMIT APPLICATION PUBLIC NOTICE**

December 15, 2006

Permit Number: OCRM-06-995
Permit ID: 56699

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Richard H Hiller
C/o O'Quinn Marine Construction Inc
95 Sheppard Rd
Lady's Island SC 29907

LOCATION: On and adjacent to Beaufort River at 92 Bay Drive on Cane Island, Lady's Island, Beaufort County, South Carolina.
TMS#: R200-020-000-0009-0000.

WORK: The work proposed consists of making additions to an existing private dock. Proposed is a 12'x13' 4 pile boatlift on the shoreward side of the existing floating dock. The purpose for the dock additions is for the owner's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before December 30, 2006.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before December 30, 2006.

NOTICE

This request was originally advertised on 9 November 2006 and inadvertently described the work as taking place in Battery Creek. The correct waterbody for the activity is Broad Creek.

C. Earl Hunter, Commissioner

Promoting and protecting the health of the public and the environment.

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 401) and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the South Carolina Department of Health and Environmental Control by

MARK VALLOTTON
2101 ROOKERY LANE
CHARLESTON, SOUTH CAROLINA 29414

for a permit to construct a dock in the

WAPPOO CREEK (AIWW)

At 15 Broughton Road, James Island, Charleston County, South Carolina (Latitude 32.768611, Longitude - 79.967500)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, TUESDAY, JANUARY 16, 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of constructing a 4' x 520' walkway with handrails, a 15' x 30' covered pierhead, and a 4' x 15' ramp leading to a 12' x 20' floating dock. The purpose of the proposed work, as stated by the applicant, is for the owner's private, recreational use.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

69A Hagood Avenue
Charleston, South Carolina 29403-5107**

The work shown on this application must also be certified as consistent with applicable provisions of the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certification is received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review. Persons wishing to comment or object to State certification must submit all comments in writing to the South Carolina Department of Health and Environmental Control at the above address within thirty (30) days of the date of this notice.

This initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 2830 square feet (or approximately 0.06 acres) of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards,

flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and

welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Christopher Mims, at 843-329-8044 or toll free at 1-866-329-8187.
